

Request to Place Item on Future Agenda

FROM: Mayor Jon Froomin

RE: Consider Action Related to Tweet by Planning Commission Chair Evan Adams

Description of Request:

(Briefly describe your request. Please be clear so that your fellow Councilmembers, staff, and members of the public understand the request. This information will also provide guidance to staff should the request receive majority support and the item be placed on a future agenda.)

Community members have alerted the City Council to a tweet posted by Planning Commission Chair Evan Adams that begins with, "Time for the USA to start monitoring Indians in the USA..." This can have an impact on the image of our local government and may be perceived to have an impact on Planning Commission decisions made by Mr. Adams when applicants are of Indian descent.

How do you believe this item should be prioritized?

(i.e. What date do you believe the item should be brought back for Council consideration?)

Since we do not know if or when an applicant of Indian descent may bring an item before the Planning Commission, I find this to be an urgent item. I urge this item to be brought to the Council on March 20 to approve a discussion on March 27 at the scheduled special meeting.

City Council Vision, Mission, and Value/Priority Area:

(How does this request fit with the City Council Vision and Mission and/or which value/priority area(s) does this request most closely align?)

Vision: ...enhance the quality of place for current and future generations.

Mission: Provision of equitable services

Priorities:

Social Equity: Continue to promote diversity and inclusive policies within the City Organization and seek social equity in all City policies, including public safety.

City Council Operations: The City Council operates at the highest level of civil discourse, encouraging resident engagement and full transparency.
