

5.12. AUTHORIZING A FIVE-YEAR AGREEMENT WITH AXON ENTERPRISE, INC. IN AN AMOUNT NOT TO EXCEED \$460,468.53 TO PURCHASE NEW BODY-WORN CAMERAS, TASER DEVICES, AND ALL ANCILLARY EQUIPMENT AND SERVICES

DATE: April 1, 2024

TO: Mayor and Members of the City Council

VIA: Stefan Chatwin, City Manager

FROM: Tracy Avelar, Police Chief

DEPARTMENT: Police

SUBJECT: AUTHORIZING A FIVE-YEAR AGREEMENT WITH AXON ENTERPRISE, INC. IN AN AMOUNT NOT TO EXCEED \$460,468.53 TO PURCHASE NEW BODY-WORN CAMERAS, TASER DEVICES, AND ALL ANCILLARY EQUIPMENT AND SERVICES

RECOMMENDATION

It is recommended that the City Council adopt the attached resolution authorizing the Mayor to execute a Five-Year Agreement with Axon Enterprise, Inc. (Axon), in an amount not to exceed \$460,468.53 for new Body-Worn Cameras, TASERs, and all ancillary equipment and services.

EXECUTIVE SUMMARY

In 2017, the Foster City Police Department (FCPD) purchased 45 updated body-worn cameras and deployed them to each officer in the field. Since the implementation of the body-worn camera program in 2013, the FCDP staff has found the recordings from the cameras to be an invaluable tool for documenting events, actions, conditions, and statements made during contacts with members of the public. The cameras have been found to enhance the department's high level of accountability and in some cases disprove false claims of police misconduct thereby proving to be an effective risk mitigation tool for the FCPD. The cameras currently being used have reached the end of their useful life. Because of the daily demands of police work, the cameras continually break and costs to repair and replace the cameras are ongoing. The current

cameras do not meet the current needs and expectations of the Police Department as it relates to body-worn camera technology.

In 2019, the City Council authorized the FCPD to purchase 35 updated TASER devices including duty and training cartridges. Since the initial purchase of TASERs in 2009, staff has found that TASERs continue to be an invaluable tool for deescalating combative subjects and have reduced the chances of serious injury to suspects and officers alike. The Police Department's current devices are nearing the end of their projected service life. Staff is recommending the replacement of our existing devices. As is the case with most technologies, improvements to the TASER device have been made over the last five years.

Based on the items outlined above, staff is recommending the replacement of the Police Department's existing body-worn cameras and TASER's with the purchase of 43 body-worn cameras, and 34 TASER's from Axon by entering into a five-year agreement. The total costs over five years shall not exceed \$460,468.53. The first year (FY 2024-25) will be funded through FCPD Equipment Replacement Fund (ERF) (620-421-42-51) with the remaining four years being funded through the budget process.

The cameras and accompanying peripherals are being recommended for purchase because they are designed specifically for use by police departments and their officers. This means the camera's durability, video/audio quality, available features, and the overall security of the camera content meet the needs of the Police Department. All officers assigned to patrol and special assignments, as well as the two patrol Community Service Officers and Reserve Police Officers, will be issued a body-worn camera.

BACKGROUND

FCPD officers are required by policy to record many different types of contacts. Between 2017 and 2024, FCPD officers have used the Watchguard body-worn camera system during every type of interaction with the public in which recording the interaction was appropriate. These interactions have included traffic stops, calls for service, arrest situations, vehicle pursuits, interviews, and voluntary citizen contacts. The recordings have served as an invaluable investigative tool and aided in the successful prosecution of many criminal cases. The current cameras have functioned adequately overall but are now up for replacement. The current cameras have frequent malfunctions due to age. Based on these issues, staff recommends the purchase of 43 new body-worn cameras from Axon, which has a proven track record within law enforcement.

In 2019, FCPD purchased updated TASER's and distributed them to all officers assigned to the patrol and administrative division. FCPD officers used their TASER devices while interacting with suspects who were actively resisting officers' attempts to gain compliance, which allowed the officers to safely take the suspects into custody. Moreover, the officers were able to choose an alternative to deadly force. The combination of intensive annual training and our officers demonstrating discipline with

its application has made the TASER a highly effective use of force option. TASER technology currently used by FCPD officers has been surpassed by more useful TASER technology, rendering the current TASERs obsolete.

The FCPD has not been capable of transferring digital evidence electronically to the San Mateo County District Attorney's Office due to the technology associated with the Watchguard camera system. Entering into the agreement with Axon will provide this ability through the integration of Evidence.com and thereby bringing FCPD into alignment with all other San Mateo County agencies and the District Attorney's Office.

ANALYSIS

Body-worn cameras and TASER devices have proven to be useful tools for the FCPD. Camera video has provided evidence in criminal matters, video used to confirm the innocence of officers accused of wrongdoings, and video used for accountability and training purposes. The newer technology being sought through Axon will provide cameras that perform well and a system that will allow secure electronic sharing of evidence.

TASER devices have proven their worth over the many years of use by FCPD officers. These devices provide a less than lethal level of force, and when deployed, have typically resulted in minimal injury while providing officers with opportunity to gain subjects compliance. Because the simple display of the TASER device is often enough to gain compliance; the discharge of the TASER is typically not necessary.

Staff recommends that we upgrade our WatchGuard Video body-worn camera system to Axon and purchase 43 cameras based on the following:

- Secure data storage: Utilizes encrypted storage to protect the integrity and confidentiality of recorded footage.
- Quick activation: Enables rapid activation to start recording at a moment's notice.
- Pre-event buffering: Records a short buffer of footage prior to activation to capture events leading up to the recording.
- Long battery life: Ensures extended recording time for full shifts or longer operations.
- Durability: Designed to withstand the rigors of law enforcement and public safety environments.
- GPS and timestamping: Provides location and time information for each recording, enhancing accountability and situational awareness.
- Integration with cloud-based Evidence.com platform: Allows seamless uploading, storage, management, and sharing of recorded footage with the San Mateo County District Attorney's office. Our current process involves a Senior Community Service Officer downloading digital media evidence on a CD and our

Court Officer hand delivers the evidence to the District Attorney's office. This process is not timely or cost efficient. Having the ability to share the evidence directly with the District Attorney's office will cut down on staff time preparing and delivering evidence, the cost of supplies and will ensure the District Attorney's office will have evidence available in a timely manner in order to make filing decisions on our criminal cases and discovery for court hearings.

- The expected service life of the Axon body-worn camera is five years.
- Purchasing 43 cameras will allow us to issue a body-worn camera to every police officer assigned to patrol and special assignments, as well as to each community service officer on patrol, and it allows for the availability of spare devices in the event there is a need.

The following provides an overview basis for the need to replace our current TASER devices:

- The current devices are suffering an increasing number of malfunctions due to age and usage.
- The demonstrated effectiveness of the device in gaining suspect compliance/cooperation.
- The demonstrated effectiveness of the device as a less lethal use of force option.
- An assumed reduction of injury to both suspects and officers averted through the display and/or application of the device.

Per TASER International, the recommended service life of a TASER device is five years. The useful life takes into account deployments and the environment in which they are used. As the devices age, malfunctions exhibited by the TASERs increase, resulting in a failure of the darts to deploy or a lack of electrical charge. Furthermore, devices that have exceeded their useful life are no longer eligible for service by TASER.

The contract specifies the provision of 43 Body-Worn Cameras will be replaced at multiple intervals, which is included in the costs. This ensures that there will be no additional costs throughout the contract..

California Environmental Quality Act

The multi-year contract with Axon for purchase of law enforcement equipment and ancillary services is not subject to review under the California Environmental Quality Act (CEQA) pursuant to Public Resources Code Section 21000, et seq. and the CEQA Guidelines (14 Cal. Code Regs. §§ 15000 et. seq.), including without limitation, Public Resources Code section 21065 and California Code of Regulations 15378 as this is not a "project" that may cause a direct, or reasonably foreseeable indirect, physical change in the environment.

FISCAL IMPACT

The total cost of purchasing 43 Axon Body-worn cameras and 34 Axon TASERs over a five-year contract is \$460,468.53. The payment structure involves \$145,010.51 in the first year, \$78,864.48 in years two through four, and \$78,864.58 in the fifth year. The cost of the first year of the contract will be funded through our Equipment Replacement Funds for TASERs and Body Worn Cameras, which as of July 1, 2024, will have a combined balance of \$147,000. The Equipment Replacement Funds will be transferred into line item 001-0620-421-4251, and then used to pay for the first year of the contract. The appropriation of funds will be through the budget process with the first year being FY 24/25.

For the remaining four years, we will be requesting the City allocate the necessary funding from the General Fund into line item 001-0620-421-4251. The total amount required for these years totals \$315,458.02 broken down as follows:

- Year 2-FY 25/26 /August 2025 - \$78,864.48
- Year 3-FY 26/27 /August 2026 - \$78,864.48
- Year 4-FY 27/28 /August 2027 - \$78,864.48
- Year 5-FY 28/29 /August 2028 - \$78,864.58

The purchase will be made through Axon, a sole source vendor to law enforcement agencies.

The total cost breakdown will be:

43 Body-Worn Cameras	\$118,368.80
Unlimited Storage & Auto Tagging	\$100,962.60
License Bundles	\$51,999.00
34 Taser Devices	\$165,729.60
2-day Taser Training	\$2,500.00
Estimated Tax	\$20,908.53
<hr/>	
Total	\$460,468.53

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF FOSTER CITY AUTHORIZING THE MAYOR TO EXECUTE A FIVE-YEAR AGREEMENT WITH AXON ENTERPRISE, INC. IN AN AMOUNT NOT-TO-EXCEED \$460,468.53 FOR THE PURCHASE OF NEW BODY-WORN CAMERAS, TASER DEVICES, SOFTWARE, LICENSES AND TECHNICAL SUPPORT SERVICES

CITY OF FOSTER CITY

WHEREAS, the City of Foster City needs to replace the current body-worn cameras, which have become obsolete; and

WHEREAS, body-worn cameras have proven to be an effective tool in mitigating risk, evidence collection, ensuring appropriate officer conduct, encouraging appropriate citizen conduct, accountability, transparency; and

WHEREAS, the City is interested in purchasing reliable, high-quality body-worn cameras and TASERS for its officers; and

WHEREAS, there is a demonstrated effectiveness of a TASER in gaining suspect compliance/cooperation; and

WHEREAS, the assumed reduction of injury to both suspects and officers averted through the display and/or application of the device; and

WHEREAS, Axon Enterprises is a sole source vendor under the City's Municipal Code section 3.04.08 for the body-worn cameras and TASERS, based on in part by the integration Evidence.com, that will bring the City into alignment with other San Mateo County agencies and the District Attorney's Office.

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Foster City does hereby authorize the Mayor to execute a five-year agreement beginning August 1, 2024 and ending August 31, 2029 with Axon Enterprise, Inc. in an amount not-to-exceed \$460,468.53 for the purchase of new body-worn cameras, taser devices, software, licenses and technical support services.

PASSED AND ADOPTED as a resolution of the City Council of the City of Foster City at the regular meeting held on the 1st day of April, 2024, by the following vote:

Tax is estimated based on rates applicable at date of quote and subject to change at time of invoicing. If a tax exemption certificate should be applied, please submit prior to invoicing.

Standard Terms and Conditions

Axon Enterprise Inc. Sales Terms and Conditions

Axon Master Services and Purchasing Agreement:

This Quote is limited to and conditional upon your acceptance of the provisions set forth herein and Axon's Master Services and Purchasing Agreement (posted at www.axon.com/legal/sales-terms-and-conditions), as well as the attached Statement of Work (SOW) for Axon Fleet and/or Axon Interview Room purchase, if applicable. In the event you and Axon have entered into a prior agreement to govern all future purchases, that agreement shall govern to the extent it includes the products and services being purchased and does not conflict with the Axon Customer Experience Improvement Program Appendix as described below.

ACEIP:

The Axon Customer Experience Improvement Program Appendix, which includes the sharing of de-identified segments of Agency Content with Axon to develop new products and improve your product experience (posted at www.axon.com/legal/sales-terms-and-conditions), is incorporated herein by reference. By signing below, you agree to the terms of the Axon Customer Experience Improvement Program.

Acceptance of Terms:

Any purchase order issued in response to this Quote is subject solely to the above referenced terms and conditions. By signing below, you represent that you are lawfully able to enter into contracts. If you are signing on behalf of an entity (including but not limited to the company, municipality, or government agency for whom you work), you represent to Axon that you have legal authority to bind that entity. If you do not have this authority, please do not sign this Quote.

Re: **Sole Source Letter for Axon Enterprise, Inc.'s TASER Energy Weapons, Axon brand products, and Axon Evidence (Evidence.com) Data Management Solutions**

A sole source justification exists because the following goods and services required to satisfy the agency's needs are only manufactured and available for purchase from Axon Enterprise. Axon is also the sole distributor and retailer of all TASER brand products for the agency identified in this letter.

TASER Energy Weapon Descriptions

TASER 7 Energy Weapon

- Multiple-shot energy weapon
- High-efficiency flashlight
- Close Quarter and Standoff cartridges
- Green LASER and dual red LASERs that adjust for cartridge angle
- Arc switch enables drive-stun with or without a TASER 7 Cartridge installed
- Central Information Display (CID): Displays mission critical data such as remaining battery energy, burst time, and cartridge status.
- Weapon logs
- TASER 7 Dock connected to Axon Evidence (Evidence.com) services
- Onboard self-diagnostic and system status monitoring and reporting
- Real-time clock updated when the battery pack is plugged into the TASER 7 Dock
- Ambidextrous safety switch
- Can be configured by the agency to alert Axon camera systems
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (unless configured by the agency to stop at five seconds). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position.
- Compatible with TASER 7 Cartridges only

TASER 7 CQ Energy Weapon

- Multiple-shot energy weapon for agencies that deploy energy weapons mostly at close quarters (CQ)
- High-efficiency flashlight
- Close Quarter cartridges
- Arc switch enables drive-stun with or without a TASER 7 Cartridge installed
- Central Information Display (CID): Displays mission critical data such as remaining battery energy, burst time, and cartridge status.
- Weapon logs
- TASER 7 Dock connected to Axon Evidence (Evidence.com) services

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- Onboard self-diagnostic and system status monitoring and reporting
- Real-time clock updated when the battery pack is plugged into the TASER 7 Dock
- Ambidextrous safety switch
- Can be configured by the agency to alert Axon camera systems
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (unless configured by the agency to stop at five seconds). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position.
- Compatible with 12-degree TASER 7 Cartridges only

X2 Energy Weapon

- Multiple-shot energy weapon
- High efficiency flashlight
- Static dual LASERS (used for target acquisition)
- ARC switch enables drive-stun with or without a Smart Cartridge installed
- Central Information Display (CID): Displays mission-critical data such as remaining battery energy, burst time, operating mode, and user menu to change settings and view data on a yellow-on-black display
- The Trilogy log system records information from a variety of sensors into three data logs: Event log, Pulse log, and Engineering log. Data can be downloaded using a universal serial bus (USB) data interface module connected to a personal computer (PC). Data may be transferred to Evidence.com services.
- Real-time clock with back-up battery
- Onboard self-diagnostic and system status monitoring and reporting
- Ambidextrous safety switch
- Capable of audio/video recording with optional TASER CAM HD recorder
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (except when used with an APPM or TASER CAM HD AS). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position
- Compatible with TASER Smart Cartridges only

X26P Energy Weapon

- High efficiency flashlight
- Red LASER (used for target acquisition)
- Central Information Display (CID): Displays data such as calculated remaining energy, burst time, and notifications
- The Trilogy log system records information from a variety of sensors into three data logs: Event log, Pulse log, and Engineering log. Data can be downloaded using a universal serial bus (USB) data interface module connected to a personal computer (PC). Data may be transferred to Evidence.com services.
- Real-time clock with back-up battery
- Onboard self-diagnostic and system status monitoring and reporting
- Ambidextrous safety switch
- Capable of audio/video recording with optional TASER CAM HD recorder
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (except when used with

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- an APPM or TASER CAM HD AS). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position.
- Compatible with TASER standard series cartridges

Axon Signal Performance Power Magazine (SPPM)

- Battery pack for the X2 and X26P conducted energy weapons
- Shifting the safety switch from the down (SAFE) to the up (ARMED) positions sends a signal from the SPPM. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode. Axon Signal technology only works with Axon cameras.

TASER Brand Energy Weapon Model Numbers

1. Energy Weapons:
 - TASER 7 Models: 20008, 20009, 20010, and 20011
 - TASER 7 CQ Models 20213, 20214
 - TASER X2 Models: 22002 and 22003
 - TASER X26P Models: 11002 and 11003
2. Optional Extended Warranties for Energy Weapons:
 - TASER 7 – 4-year extended warranty, item number 20040
 - X2 – 4-year extended warranty, item number 22014
 - X26P – 2-year extended warranty, item number 11008
 - X26P – 4-year extended warranty, item number 11004
3. TASER 7 Cartridges (compatible with the TASER 7; required for this Energy Weapon to function in the probe deployment mode)
 - Standoff cartridge, 3.5 degrees, Model 22175
 - Close Quarter cartridge, 12 degrees, Model 22176
 - Hook and Loop Training (HALT) cartridge, 3.5 degrees, Model 22177
 - Hook and Loop Training (HALT) cartridge, 12 degrees, Model 22178
 - Inert cartridge, 3.5 degrees, Model 22179
 - Inert cartridge, 12 degrees, Model 22181
4. TASER standard cartridges (compatible with the X26P; required for this Energy Weapon to function in the probe deployment mode):
 - 15-foot Model: 22188
 - 21-foot Model: 22189
 - 21-foot non-conductive Model: 44205
 - 25-foot Model: 22190
5. TASER Smart cartridges (compatible with the X2; required for this Energy Weapon to function in the probe deployment mode):
 - 15-foot Model: 22184
 - 25-foot Model: 22185
 - 25-foot inert simulation Model: 22155
 - 25-foot non-conductive Model: 22157
6. Battery Packs for TASER 7 Energy Weapons:

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- Tactical battery pack Model 22018
 - Compact battery pack Model 22019
 - Non-Rechargeable battery pack Model 22020
 - Disconnect battery pack Model 20027
7. TASER CAM HD recorder Model: 26810 (full HD video and audio) and TASER CAM HD with AS (automatic shut-down feature) Model: 26820. The TASER CAM HD is compatible with both the X26P and X2 energy weapons.
- TASER CAM HD replacement battery Model: 26764
 - TASER CAM HD Download Kit Model: 26762
 - TASER CAM HD optional 4-year extended warranty, item number 26763
8. Battery Packs for X26P and X2 Energy Weapons:
- Performance Power Magazine (PPM) Model: 22010
 - Tactical Performance Power Magazine (TPPM) Model: 22012
 - Automatic Shut-Down Performance Power Magazine (APPM) Model: 22011
 - eXtended Performance Power Magazine (XPPM) Model: 11010
 - eXtended Automatic Shut-Down Performance Power Magazine (XAPPM) Model: 11015
 - Axon Signal Performance Power Magazine (SPPM) Model: 70116
9. TASER 7 Dock:
- TASER 7 Dock Core and Multi-bay Module: 74200
 - TASER 7 Dock Core and Single-bay Module: 74201
 - TASER 7 Dock Single Bay Dataport: 74208
10. TASER Dataport Download Kits:
- Dataport Download Kit for the X2 and X26P Model: 22013
11. TASER Blast Door Repair Kit Model 44019 and TASER Blast Door Replenishment Kit Model 44023
12. Energy Weapon Holsters:
- Right-hand TASER 7 holster by Safariland Model: 20063
 - Left-hand TASER 7 holster by Safariland Model: 20068
 - Right-hand TASER 7 holster with cartridge carrier by Safariland Model: 20160
 - Left-hand TASER 7 holster by with cartridge carrier by Safariland Model: 20161
 - Right-hand X2 holster by BLACKHAWK Model: 22501
 - Left-hand X2 holster by BLACKHAWK Model: 22504
 - Right-hand X26P holster by BLACKHAWK Model: 11501
 - Left-hand X26P holster by BLACKHAWK Model: 11504
13. TASER Simulation Suit II Model 44550
14. TASER 7 conductive target Model: 80087
15. Blue X26P Demonstrator/LASER Pointer Model: 11023

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

Axon Digital Evidence Solution Description

Axon Body 3 Video Camera (DVR)

- Improved video quality with reduced motion blur and better low-light performance
- Multi-mic audio—four built-in microphones
- Wireless upload option
- Gunshot detection and alerts
- Streaming audio and video capability
- “Find my camera” feature
- Verbal transcription with Axon Records (coming soon)
- End-to-end encryption
- Twelve-hour battery
- Up to 120-second buffering period to record footage before pressing record button

Axon Flex 2 Video Camera

- Video playback on mobile devices in the field via Bluetooth pairing
- Retina Low Light capability sensitive to less than 0.1 lux
- Audio tones to alert user of usage
- Low SD, high SD, low HD, and high HD resolution (customizable by the agency)
- Up to 120-second buffering period to record footage before pressing record button
- Multiple mounting options using magnetic attachment: head, collar, shoulder, helmet, ball cap, car dash, and Oakley sunglass mounts available
- 120-degree diagonal field of view camera lens, 102-degree horizontal field of view, and 55-degree vertical field of view

Axon Flex 2 Controller

- 12+ hours of battery operation per shift (even in recording mode)
- LED lights to show current battery level and operating mode
- Haptic notification available
- Tactical beveled button design for use in pocket
- Compatible with Axon Signal technology

Axon Air System

- Purpose-built solution for law enforcement UAV programs
- Supported applications on iOS and Android
- Automated tracking of pilot, aircraft, and flight logs
- Unlimited Storage of UAV data in Axon Evidence (Evidence.com)
- In application ingestion of data in Axon Evidence (Evidence.com)
- Axon Aware integration for live streaming and situational awareness

Axon Body 2 Video Camera

- Video playback on mobile devices in the field via Bluetooth pairing
- Retina Low Light capability sensitive to less than 1 lux
- Audio tones and haptic (vibration) notification to alert user of usage
- Audio mute during event option
- Wi-Fi capability
- High, medium, and low quality recording available (customizable by the agency)
- Up to 2-minute buffering period to record footage before pressing record button

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- Multiple mounting options using holster attachment: shirt, vest, belt, and dash mounts available
- 12+ hours of battery operation per shift (even in recording mode)
- LED lights to show current battery level and operating mode
- 143-degree lens
- Includes Axon Signal technology

Axon Fleet 3 Camera

- High-definition Dual-View Camera with panoramic field of view, 12x zoom, and AI processing for automatic license plate reader (ALPR)
- High-definition Interior Camera with infrared illumination for back seat view in complete darkness
- Wireless Mic and Charging Base for capturing audio when outside of vehicle
- Fleet Hub with connectivity, global navigation satellite system (GNSS), secure solid-state storage, and Signal inputs
- Automatic transition from Buffering to Event mode with configurable Signals
- Video Recall records last 24 hours of each camera in case camera not activated for an event
- Intuitive mobile data terminal app, Axon Dashboard, for controlling system, reviewing video, quick tagging, and more
- Ability to efficiently categorize, play back and share all video and audio alongside other digital files on Evidence.com
- Multi-cam playback, for reviewing up to four videos, including body-worn and in-car footage, at the same time
- Fully integrated with Evidence.com services and Axon devices
- Automatic time synchronization with all Axon Fleet and other Axon on-officer cameras allows for multi-camera playback on Evidence.com.
- Prioritized upload to Evidence.com of critical event videos via 4G/LTE
- Wireless alerts from the TASER CEW Signal Performance Power Magazine (SPPM) and Signal Side Arm (SSA).
- Best-in-class install times, wireless updates and quick remote troubleshooting
- Optional Axon Aware live stream, alerts, and location updates for situational awareness
- Optional Axon ALPR hotlist alerts, plate read retention, and investigative search

Axon Fleet 2 Camera

- Fully integrated with Axon Evidence services and Axon devices
- Automatic time synchronization with other Axon Fleet and Axon on-officer cameras allows for multi-camera playback on Axon Evidence.
- Immediate upload to Axon Evidence of critical event videos via 4G/LTE
- Wireless alerts from the TASER energy weapon Signal Performance Power Magazine (SPPM).
- Automatic transition from BUFFERING to EVENT mode in an emergency vehicle equipped with the Axon Signal Unit
- Decentralized system architecture without a central digital video recorder (DVR).
- Cameras that function independently and communicate wirelessly with the computer in the vehicle (MDT, MDC, MDU) for reviewing, tagging and uploading video.
- Wireless record alert based on Bluetooth communication from Axon Signal Vehicle

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

when a configured input is enabled (e.g. emergency light, siren, weapon rack, etc.).

- Receives alerts from Axon Signal Sidearm.
- Plug-And-Play design allowing for cameras to be easily replaced and upgraded.
- Ability for an unlimited number of agency vehicles recording in the same vicinity with an Axon Fleet system to be automatically associated with one another when reviewing video in the video management platform. This feature is also supported across body cameras.

Axon Signal Unit (ASU)

- Communications device that can be installed in emergency vehicles.
- With emergency vehicle light bar activation, or other activation triggers, the Axon Signal Unit sends a signal. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode.

Axon Signal Performance Power Magazine (SPPM)

- Battery pack for the TASER X2 and X26P conducted electrical weapons
- Shifting the safety switch from the down (SAFE) to the up (ARMED) positions sends a signal from the SPPM. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode. Axon Signal technology only works with Axon cameras.

Axon Signal Sidearm Sensor

- Can be installed on common duty holsters
- Drawing a service handgun from the holster sends a signal from the Axon Signal Sidearm sensor. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode.

Axon Interview Solution

- High-definition cameras and microphones for interview rooms
- Covert or overt camera installations
- Touch-screen user interface
- Motion-based activation
- Up to 7-minute pre- and post-event buffering period
- Full hardware and software integration
- Upload to Axon Evidence services
- Interview room files can be managed under the same case umbrella as files from Axon on-officer cameras and Axon Fleet cameras; i.e., Axon video of an arrest and interview room video are managed as part of the same case in Axon Evidence
- Dual integration of on-officer camera and interview room camera with Axon Evidence digital evidence solution

Axon Signal Technology

- Sends a broadcast of status that compatible devices recognize when certain status changes are detected
- Only compatible with TASER and Axon products

Axon Dock

- Automated docking station uploads to Axon Evidence services through Internet connection

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- No computer necessary for secure upload to Axon Evidence
- Charges and uploads simultaneously
- The Axon Dock is tested and certified by TUV Rheinland to be in compliance with UL 60950-1: 2007 R10.14 and CAN/ CSA-C22.2 NO.60950-I-07+AI:2011+A2:2014 Information Technology Equipment safety standards.

Axon Evidence Data Management System

- Software as a Service (SaaS) delivery model that allows agencies to manage and share digital evidence without local storage infrastructure or software needed
- SaaS model reduces security and administration by local IT staff: no local installation required
- Automatic, timely security upgrades and enhancements deployed to application without the need for any local IT staff involvement
- Securely share digital evidence with other agencies or prosecutors without creating copies or requiring the data to leave your agency's domain of control
- Controlled access to evidence based on pre-defined roles and permissions and pre-defined individuals
- Password authentication includes customizable security parameters: customizable password complexity, IP-based access restrictions, and multi-factor authentication support
- Automated category-based evidence retention policies assists with efficient database management
- Ability to recover deleted evidence within seven days of deletion
- Stores and supports all major digital file types: .mpeg, .doc, .pdf, .jpeg, etc.
- Requires NO proprietary file formats
- Ability to upload files directly from the computer to Axon Evidence via an Internet browser
- Data Security: Robust Transport Layer Security (TLS) implementation for data in transit and 256-bit AES encryption for data in storage
- Security Testing: Independent security firms perform in-depth security and penetration testing
- Reliability: Fault- and disaster-tolerant infrastructure in at least 4 redundant data centers in both the East and West regions of the United States
- Chain-of-Custody: Audit logs automatically track all system and user activity. These logs cannot be edited or deleted, even by account administrators and IT staff
- Protection: With no on-site application, critical evidence stored in Axon Evidence is protected from local malware that may penetrate agency infrastructure
- Stability: Axon Enterprise is a publicly traded company with stable finances and funding, reducing concerns of loss of application support or commercial viability
- Application and data protected by a CJIS and ISO 27001 compliant information security program
- Dedicated information security department that protects Axon Evidence and data with security monitoring, centralized event log analysis and correlation, advanced threat and intrusion protection, and incident response capabilities
- Redact videos easily within the system, create tags, markers and clips, search 7 fields in addition to 5 category-based fields, create cases for multiple evidence files

Axon Evidence for Prosecutors

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- All the benefits of the standard Axon Evidence services
- Ability to share information during the discovery process
- Standard licenses available for free to prosecutors working with agencies already using Axon Evidence services
- Unlimited storage for data collected by Axon cameras and Axon Capture

Axon Capture Application

- Free app for iOS and Android mobile devices
- Allows users to capture videos, audio recordings, and photos and upload these files to their Axon Evidence account from the field
- Allows adding metadata to these files, such as: Category, Title, Case ID, and GPS data

Axon Commander Services

- On-premises data management platform
- Chain of custody reports with extensive audit trail
- Automated workflows, access control, storage, and retention
- Compatible with multiple file formats

Axon View Application

- Free app for iOS and Android mobile devices
- Allows user to view the camera feed from a paired Axon Body, Axon Body 2, Axon Flex, or Axon Flex 2 camera in real-time
- Allows for playback of videos stored on a paired Axon Body, Axon Body 2, Axon Flex, or Axon Flex 2 system
- Allows adding meta-data to videos, such as: Category, Title, Case ID, and GPS data

Axon Records

- Continuously improving automated report writing by leveraging AI and ML on officer recorded video, photo, and audio from BWC, In-Car, Mobile App (Axon Capture), or other digital media
- Collaborative report writing through instantly synced workspaces allowing officers to delegate information gathering on scene
- Instant access to records allowing detectives to begin their investigation and records clerks to update information exchanges on things like missing people or stolen property as soon as possible
- Complete leveraging of Axon Evidence sharing to allow fast, efficient, digital, and secure sharing of records and cases to DAs and Prosecutors
- Robust API and SDK allows data to be easily ingested and pushed out to other systems—preventing data silos
- Deep integration with Axon Evidence putting video at the heart of the record and automating the process of tagging and categorizing digital evidence stored in Axon Evidence
- Automatic association of digital evidence to the record and incident through Axon Evidence integration
- In context search of master indexes (people, vehicles, locations, charges)—promoting efficient report writing through prefilling of existing data which promotes clean and deduped data in the system
- Quick views for users to track calls for service and reports in draft, ready for review,

SCOTTSDALE, ARIZONA 85255

AXON.COM

- kicked back for further information, or submitted to Records for archiving.
- Federal and State IBRS fields are captured and validated—ensuring the officer knows what fields to fill and what information needs to be captured
- Intuitive validation ensures officers know what information to submit without being burdened by understanding the mapping of NIBRS to state or local crime codes
- Ability to create custom forms and add custom fields to incident reports—allowing your agency to gather the information you find valuable
- Software as a Service (SaaS) delivery model that allows agencies to write, manage, and share digital incident reports without local storage infrastructure or software needed
- SaaS model reduces security and administration by local IT staff: no local installation required
- Automatic, timely security upgrades and enhancements deployed to application without the need for any local IT staff involvement
- Securely share records and cases with other agencies or prosecutors without creating copies or requiring the data to leave your agency's domain of control
- Controlled access based on pre-defined users, groups, and permissions
- Password authentication includes customizable security parameters: customizable password complexity, IP-based access restrictions, and multi-factor authentication support
- Security Testing: Independent security firms perform in-depth security and penetration testing
- Reliability: Fault- and disaster-tolerant infrastructure in at least 4 redundant data centers in both the East and West regions of the United States
- Chain-of-Custody: Audit logs automatically track all system and user activity. These logs cannot be edited or deleted, even by account administrators and IT staff

Axon Standards

- Internal affairs and professional standards reporting
- Customizable information display, including custom forms
- Customizable workflows and user groups
- Automated alerts
- Compatible with digital documents, photos, and videos
- Connection with Transcription (beta)
- Shared Index with evidence.com and Records
- Data Warehouse allowing custom summary reports and integration into 3rd party analytic tools.
- Workflow analytics to provide SLA on throughputs
- Integration with the TASER 7 energy weapon for automatically pulling firing logs (alpha)
- Available as an option for Axon Records
- Automatically bundled with Officer Safety Plan 7+

Axon Professional Services

- Dedicated implementation team
- Project management and deployment best practices aid
- Training and train-the-trainer sessions
